## PROJECTS

### Footwear Management System :

- Designed and developed browser based website using HTML, CSS, JAVASCRIPT, PHP and SQL.
- I did this project as a demo group project in the final year of BCA in the last semester.
- Managing details of Customer, Order, Footwear, Shopping Cart and Payment.

### Student Enrollment System :

- The Student Enrollment System is a web-based application built using Django, designed to manage student profiles efficiently.
- It provides functionalities for creating, reading, updating, and deleting student records, making enrollment management seamless.

### Alien Tank Game :

- The Alien Tank Game is a fun and interactive 2D game developed using HTML, CSS, and JavaScript.
- Players control a tank to shoot enemy aliens, avoid obstacles, and collect power-ups while aiming for a high score. The game becomes progressively harder as the player advances.
